About Me

- I am a Front-end Developer with nearly 1 year of experience, passionate about creating responsive, user-friendly interfaces. While I specialize in front-end technologies, I am actively expanding my skills to become a Full-Stack Developer. I enjoy building seamless web applications and aim to deliver functional, aesthetically pleasing, and efficient solutions. I am eager to collaborate and contribute to a team where I can grow professionally and build long-term, successful relationships with the company.

Skills

- Front-end: HTML | CSS | JavaScript | TypeScript | React.JS | Next.JS | Redux | Redux-Saga | React-Query | Bootstrap | Ant design | Tailwind CSS | Material UI | SCSS/SASS | Zustand.
- Back-end: Java | JavaScript | NodeJS (ExpressJS) | Spring.
- Database: MySQL | MongoDB.

Experience

Frontend Developer　　　　　　　　**TMA Solutions**　　　　　　　　**09/2023 - 12/2023**

- As a Frontend Developer, I specialized in building dynamic and user-friendly CMS interfaces using ReactJS. My work focused on delivering intuitive dashboards and tools tailored for IoT applications, ensuring seamless data visualization and management.
- Designed user interfaces and called APIs using popular libraries such as **Tailwind CSS**, **MUI**, and **Ant Design**.

Education

HCMC University of Technology and Education　　　　　　　　**08/2019 - 12/2023**

- Software Engineer
